Early Dental Home Committee

Thursday October 17, 2019
Welcome!

Please say your name, organization, and the last place you went for the first time.
Group share:
Announcements, updates, etc...

October 11, 2019
Book, Brush, Bed program – South Hampton Roads

Jane Glasgow, Minus 9 to 5

Brush, Book, Bed™
A program of the American Academy of Pediatrics
Catalyst updates

Register for the Virginia Oral Health Summit!
November 7 – Westin in Richmond

October 11, 2019
• Upcoming initiatives:
  • Statewide Water Taskforce
  • Clinical Advisory Board
• Regional minigrants
• Vote on November 5! **ALL** state representative seats are up for grabs. *Every. Single. One.*
Policy Updates

• Comprehensive adult dental benefit in Medicaid
• Fluoride varnish and medical assistants
• EPSDT varnish
• Water bottle filling stations
• Partner legislation
• Medicare update
OVERVIEW:
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT

Early Dental Home Workgroup
October 2019

Marcus Allen, MPH, Children & Youth with Special Health Care Needs Director
Tonya Adiches, BSDH, RDH, Dental Health Programs Manager
Title V Core Team

- Carla Hegwood: Acting Title V Director (Title V Consultant & MCH Special Projects Coordinator)
- Marcus Allen: CYSHCN Director
- Dana Yarbrough: Virginia Family Delegate
- Meagan Robinson: MCH Epidemiology Supervisor; SSDI Director
- Shamaree Cromartie: Bleeding Disorders Coordinator
- Shannon Pursell: Maternal and Infant Health Coordinator; Perinatal Health Domain Lead
- Emily Yeatts: Reproductive Health Unit Supervisor; Title X Director; Women's Health Domain Lead
- Andelicia Neville: Early Childhood Unit Supervisor
- Tonya Adiches: Dental Health Programs Manager
- JoAnn Wells: Maternal, Infant, and Adolescent Dental Health Consultant
- Melanie Rouse: Maternal Mortality Projects Coordinator, Office of the Chief Medical Examiner
- Bethany Geldmaker: Early Child Health Consultant; VMAP Director; Child Health Domain Lead
- Maddie Kapur: Adolescent Health Coordinator; Adolescent Health Domain Lead
- Lisa Wooten: Injury and Violence Prevention Program Supervisor
- Consuelo Staton: State Resource Mothers Program Coordinator

- Dr. Vanessa Walker Harris: Associate Commissioner; Director, Office of Family Health Services
- Jen MacDonald: Acting Director, Division of Child and Family Health (Newborn Screening Manager)
- Heather Board: Director, Division of Prevention and Health Promotion
- Leslie Hoglund: Director, Division of Population Health Data
Presentation Outline

1. What is Title V?

2. 2020 Five-Year MCH Needs Assessment

3. Highlights: Current Programs

4. Oral Health & Title V
OVERVIEW:
What is Title V?
What is Title V?

• Large federal block grant program structured around life course model to serve:
  • Women of Reproductive Age
  • Pregnant Women & Infants (0-1)
  • Children & Adolescents (to age 21)
  • Children & Youth with Special Health Care Needs (to age 21)
  • Others (Men, ISHCN 22+)

• Administered by HRSA through the Maternal and Child Health Bureau

• Complementary investments:
  – Healthy Start
  – Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV)
  – ACF: Title V Sexual Risk Avoidance Education Program
  – Mandated Service: Newborn Screening
Title V Funding

• Grants to 59 states and jurisdictions
• States apply annually
• Allocations by formula, based loosely on the proportion of low-income children in the state
• For every $4 of federal funds, states must provide a match of at least $3 of state or local funds (i.e. non-federal dollars)
  – Virginia’s award is approximately 12M per year, 9M GF match

• Provide broad range of health care and public health services to >56 million people in the United States
  • 2017: 86% of pregnant women, 99% of infants, and 55% of children benefitted from a Title V-funded service
Budget Snapshot for Virginia

- Federal Allocation: $12,287,553
- State Match: $9,215,665
- Special Revenue: $1,618,704
- Program Income: $2,086,819
Budget Snapshot
FY18 Title V Expenditures

- Preventative and Primary Care for Children: 31%
- Children with Special Health Care Needs: 9%
- Infrastructure: 8%
- Pregnant Women: 10%
- Men, Women, Special Health Care Needs over 22Yrs: 42%
DATA TO ACTION:
Virginia’s 2020 Five-Year MCH Needs Assessment
Consider:
Why does Title V exist?

• The Great Depression, cutbacks in federal health programs, and declining health among mothers and children spurred President Franklin D. Roosevelt to sign legislation:
  – Title V of the Social Security Act was enacted in 1935

• Through Title V, the federal government pledged its support for state MCH efforts.
  – Remains a critical funding stream for improving the health and well-being of the nation’s mothers and children
    • including children with special health care needs
    • with a focus on low-income populations
  – Maternity and child care infrastructure, economic strain, starvation, homelessness, child labor, physical disabilities and social/emotional needs beyond those of other children...
Needs & Capacity Assessment Requirements

(1) Preventive and primary care services for pregnant women, mothers and infants up to age one;
(2) Preventive and primary care services for children; and
(3) Services for children with special health care needs.

Assess
Conduct a comprehensive assessment every 5 years.

Analyze
Summarize population needs, program capacity, and partnerships.

Prioritize
Identify 7-10 priority needs to guide action plan.

Plan
Develop program strategies.

Review
Re-examine and refine annually.
## Overview of the State

Virginia is the 12\textsuperscript{th} most populous state in the U.S.

Current Performance Measures

National Performance Measures
1. Safe Sleep
2. Developmental Screening
3. Injury Hospitalization
4. Medical Home
5. Transition
6. Preventive Dental Visit

State Performance Measures
1. Unintended Pregnancy
2. Family Engagement
3. Youth Engagement
4. Early & Continuous Screening

State Outcome Measures
1. Infant Mortality Disparity
2. Maternal Mortality Disparity
Needs Assessment

Gender Distribution of Participants

Type of Interview | Number
--- | ---
Key Informant Interviews | 178
Focus Groups | 17
Stakeholder meeting | 1
Total | 196

HIGHLIGHTS:
Current Program Efforts
Program Highlights

- Investments & Partnerships
  - CSHCN Programs
  - Local Health Districts
  - Developmental Screening: 6 regional hubs
  - Office of the Chief Medical Examiner: maternal and child fatality review teams
  - MIECHV: State needs assessment, safe sleep training for home visitors
  - Resource Mothers & Healthy Start: ‘Growing Great Kids’ training for CHWs and home visitors
  - Breastfeeding: modules, 5-Star Breastfeeding Program
  - Injury: Suicide prevention training, Project ECHO© NAS, child safety seat distribution, prevention curriculum in maternity hospitals
  - Staff Support:
    - MCH Data
    - VMAP (Virginia Mental Health Access Program)
    - VNPC (Virginia Neonatal/Perinatal Collaborative)
    - LARC Initiative (Long-Acting Reversible Contraceptives)
    - EHDI (Early Hearing Detection and Intervention)
    - VaCARES (Virginia Congenital Anomalies Reporting and Education System)
State Focus Area: 
**Family & Youth Engagement**

- Family & Youth Engagement
  - Virginia’s Family Delegate
  - Family-to-Family Health Information Centers
  - EHDI 1-3-6 Educators and Learning Communities
  - New! Adolescent Health Program & Youth Advisors
    - Textlines for Teens (Mental Health, Sexual Health)

2019 Merle McPherson Family Leadership Award: Dana Yarbrough!
Leadership Opps
Parents as paid staff (F2FHIC, CCCs) and leading committees and learning communities

Mentoring
F2FHIC, Resource Mothers, CCC/CDC referrals

Policy
Statewide Family Engagement Network, EHDI Advisory Committee, CCC Advisory Committees, Medical Neighborhood

Continuous Improvement
CCC survey, Home Visitor quality assurance, EHDI 1-3-6 Family Educators
State Focus Area: Maternal Mortality Disparity

- In June 2019, Governor Northam announced a goal to eliminate the racial disparity in Virginia’s maternal mortality rate.

- This goal means a more than 50% reduction in the maternal mortality rate for Black women in Virginia.
Maternal Mortality Disparity

• Virginia’s Maternal Mortality Review Team
  – Placed in VA code July 2019
  – The review committee meets bimonthly, sits under OCME
  – Annual CDC Maternal Mortality Conference
  – Reports are published about every 2 years with recommendations
  – Partnership with the VNPC to move from review to action
    • Alliance for Innovation on Maternal Health (AIM) State
    • Patient safety bundles

• SHHR Maternal Health Community Forums in October

• VHHA-VDH Initiative:
  – Targeted interventions for hospitals with disparate outcomes
Virginia Neonatal Perinatal Collaborative

- Steering Committee (6 Members)
- Executive Committee (15 Members)
- Advisory Committees
  - Improving Perinatal Outcomes
  - Improving Neonatal Outcomes
  - Data Acquisition and Management
  - Community Engagement
  - Advocacy and Sustainability
- Project Workgroups
  - Neonatal Abstinence Syndrome (NAS)
  - Maternal Opioid Use Disorder (OUD)
  - Antibiotic Stewardship in the NICU and Newborn Nursery
  - Obstetric Hemorrhage
  - Severe Hypertension in Pregnancy
- Website: [www.virginianpc.org](http://www.virginianpc.org)
State CYSHCN Network

• Virginia Bleeding Disorders Program (VBDP) – 4 centers, 365 families served
• Pediatric Comprehensive Sickle Cell Program - 4 centers, 940 families served
• Child Development Centers (CDCs)- 5 centers, 3072 families served
• Care Connection for Children (CCCs) – 6 centers, 2,949 families served
HIGHLIGHTS: Oral Health Across the Life Course
Highlights: Oral Health

• NPM 13 - Oral Health (Maternal, Child, Adolescent)
  – Goal:
    • 13.1 Increase the number of pregnant women who have a dental visit during pregnancy
    • 13.2 Increase the number of children, ages 1 - 17, who had a preventive dental visit in the past year
Highlights: Oral Health

• Virginia’s Oral Health Report Card

44% of pregnant women visited a dentist.

Dental care is a safe and necessary part of prenatal care. A new dental benefit for pregnant women enrolled in Medicaid is laying the groundwork to increase the number of pregnant women who seek care.

24% of children aged 1-2 had a preventive dental visit through Medicaid.

When children begin dental visits by age one, it saves money and improves health outcomes for all.

53% of children and teens aged 1-20 had a preventive dental visit through Medicaid.

Preventive dental visits are vital to maintaining healthy teeth and gums and laying the foundation for lifelong oral health.
Highlights: Oral Health

• ISHCN Oral Health Program
  - Provider Trainings
  - Clinical Services
  - Online Directory
  - ISHCN Basic Screening Survey

• Regional Oral Health Alliances – VaOHC
  - Strategic planning
  - Projects
Highlights: Oral Health

- Perinatal & Infant Oral Health Quality Improvement Grant
  - Achievements
  - Innovation Station
- Emerging Issues
  - Vaping
  - HPV
We’d love to hear from you!

Title V Consultant & MCH Special Projects Coordinator  
carla.hegwood@vdh.virginia.gov
Accessing good oral health is like going through a series of locked doors.

Some people have all the keys they need to unlock the doors to oral health but others are missing some keys.

To build a healthier nation, we need to make sure all people have the keys they need to access good oral health. This is what a just oral health system looks like.
OPEN Commitments

Focused on **disrupting the status quo**, but we make sure to meet people where they are because we know that lasting and impactful change requires effort on all sides.
