Telehealth/Teledentistry Guidance

Virginia Health Catalyst Front Line Innovations: [Teledentistry During and After COVID-19](#)

- Dr. Wolpin and Eastern Shore Rural Health quickly adopted teledentistry in March 2020 in an effort to keep patients out of the ER
- He shares the process he and his team took to make teledentistry a reality, and how it has allowed them to reach patients even during COVID-19

VDA: [Teledentistry Notice and Consent](#)

- Defines what is required to practice teledentistry
 - Notably, a bona-fide dentist-patient relationship must be established either via **in person examination** or **real-time interactive two-way** communication technology
- Template for Teledentistry Consent Form available
 - Remember, informed consent is part of standard of care and teledentistry is still subject to the same standard of care as required by state law and regulations as in-person dentistry

Clinical Guidance

[Virginia Dental Safety Net Clinic Status](#)

HHS: [COVID-19 Workforce Virtual Toolkit](#)

- This collection provides a curated set of resources and tools for decision-makers managing healthcare workforce challenges in response to the COVID-19 emergency

ADA: [COVID-19 Coding and Billing Interim Guidance: PPE](#)

- For clinics who are determining if additional charges for PPE may be required this document outlines coding, completion of the claim form, FAQ, and current Payer Programs and Policies
